100% ACTIVE MATERIAL

Solutions for High Performance Chemicals

GRUPO ADI

MAXIMUM CLEANLINESS • INNOVATION • SUSTAINABILITY

At **GRUPO ADI** we create innovative chemical products as revolutionary substances driving advances in various industries.

Our chemical innovation contributes to a greener economy, promoting the creation of biodegradable products and cleaner processes.

- **Liquid, biodegradable.**
- **Product with limited foaming.**
- **Easily mixes with water, in any ratio.**
- **Excellent wetting.**
- **Excellent capacity to remove fatty and oily contaminants.**
- **Classified as a non-hazardous product.**
- **Low toxicity (H315) compared to other analogous alternatives on the market.**
- **Excellent solubility in cold water without a gelation effect.**
- **APEO-free product.**
- **Suitable for automatic dosing systems.**
- **Suitable for batch and continuous processes.**
- **Application efficiency in acid and alkaline environments.**
- **Allows for quick and spotless drying.**
- **High brightening effect.**

*Due to its chemical nature, the product must be formulated at a pH between 5.5 and 7.5 to ensure the formulation's stability.
